CONGRESSIONAL PROCEEDINGS.

Trouble Feared in Italy on the First Day of May.

Ten Central and South American Nations to Arbitrate.

Fatal Railroad Accident

By Associated Press.
STANTON, Va., April 28.—At 3 A.M. an express train of the Chesapeake & Ohio for Washington, was descending a heavy grade a mile west of Stanton, when the air brake was rendered useless, and the train rushed into Stanton at the rate of eighty miles an hour, tearing away the depot roof. A Pullman sleeper was thrown on its side, and in it were fifteen members of the "Pearl of Pekin" troupe, enroute to Baltimore. Of this company, Myrtle Knox was injured and died while being taken from the car; Edith Miller's leg was broken; Edward Webb, Edward Stevens, Bertha Fisher, Louis Harrison and Lora Dunham all escaped with slight bruises and cuts. The car took fire but was put out.

Union Pacific Report.

By Associated Press.
BOSSON, April 28.—The Union Pacific issued its annual report to-day. While the Union Pacific proper shows substantially the same result as for 1888, the whole system shows a comparative loss in its surplus of \$407,000; the surplus for the year being \$1,450,000 against \$1,552,000 for the previous year. This loss, President Adams states, is due to the decreased earnings of the O. R. & N. Co., by reason of deficient crops in Oregon and Washington. The whole system of 5,180 miles shows: Gross earnings, \$31,070,000; an increase of \$875,000; net earnings, \$11,196,000, an increase of \$835,000.

The Chicago Carpenters' Strike.

By Associated Press.
CHICAGO, April 28.—The non-union men in considerable numbers are coming into Chicago. It is believed the master carpenters have agents in other cities securing all the non-union carpenters they can find. In the meantime the Boss Carpenters' Association and the Carpenters' Council are making arrangements to put 4,000 carpenters at work.

Will Arbitrate.

By Associated Press.
WASHINGTON, April 28.—The Representatives of ten of the seventeen nations participating in the International American Conference, this morning signed an agreement drawn up by the conference, for a settlement by arbitration of the differences between them.

Trouble Anticipated.

By Cable and Associated Press.
ROME, April 28.—The Italian Government has taken precautions looking to the maintenance of order on May day.

Violence Favored.

By Cable and Associated Press.
PARIS, April 28.—A meeting of anarchists was held at Lyons, yesterday, at which speeches were made in favor of violence by the workmen, on May 1st. Eleven participants in the meeting were arrested.

Proceedings of Congress.

By Associated Press.
WASHINGTON, April 28.—The Speaker laid before the House a message from the President, returning without his approval, the bill to allow Ogden, Utah, to increase its indebtedness. Referred to the Committee on Territories.

The legislative, judicial appropriation bill passed without a division.

The House then went into Committee of the Whole on the bills relating to the District of Columbia.

The House Committee on Public Lands directed a favorable report on the Senate bill to provide for the acquisition of land for town sites and commercial purposes in Alaska.

SENATE.

There was an extended discussion of the question whether the levee system, or the outlet system, or a combination of the two is best fitted to protect the people of the lower Mississippi valley from floods. Various opinions were expressed.

A Murderer Fatally Wounded.

By Associated Press.
FRESNO, Cal., April 28.—August Koenig, a farm hand on Davis' ranch near Firsbaugh, shot and killed another hand named Joseph Hart yesterday. Koenig was on a spree and Hart had taken his pistol from him. He then secured a shotgun and killed Hart, and afterwards left the ranch. He was pursued by a posse and shot down, a ball lodging at the base of the brain. The wound is believed to be fatal. He was brought here to-day and placed in the jail hospital.

Steamship Arrivals.

By Cable and Associated Press.
NEW YORK, April 28.—The Atrania, from Liverpool, arrived here this morning.

HAYRE, April 28.—The steamer La Gasconne, from New York, arrived here to-day.

GLASGOW, April 28.—The State of Nebraska, from New York, is here.

SOUTHAMPTON, April 28.—The Werra, from New York, arrived here this afternoon.

A Crevasse Closed.

By Associated Press.
BATON ROUGE, April 28.—After arduous work the Martinez crevasse is virtually closed, and an attempt will next be made to close the break in the Lottel levee.

BATON ROUGE, April 28.—The river is still steadily falling, and all fear of further breaks is gone.

California Pioneers.

Special to the GAZETTE.
SAN FRANCISCO, April 28.—One hundred and forty members of the Society of California Pioneers of New England arrived in this city from Sacramento this afternoon. A number of the delegation reached here on Saturday. A reception will be tendered the visitors at Pioneer Hall to-morrow.

BRITISH POLITICS.

Gladstone's Old Supporters Returning to Him.
London Truth says: By leaps and bounds every constituency that fell away from the true faith in 1886, and that gets a chance to show its utter detestation of the Ministry which has held office since then, eagerly seizes the opportunity to declare for Mr. Gladstone. If there were a general election we should sweep the country. And for that reason there is not likely to be an election for some time. To my thinking, there is something unutterably base in a Government clinging on to office when they know that they are loathed by the majority of the nation for whom they affect to speak. It is not that the Septennial Act affords a limit to their greed for salary and to their detestation of the nation, a revolution would not only be justifiable—it would be a duty.

An Able Woman.

The Omaha World-Herald says: That Mrs. John A. Logan was responsible for much of the success which her distinguished husband met with is apparent from the fact that the public and the Grand Army of the Republic regard her with undiminished enthusiasm, while Mrs. Grant, Mrs. Garfield and other widows of our great men excite comparatively little interest. Mrs. Logan holds her position among the distinguished and active persons of the country by force of her personal merits.

More Anti-Jewish Rioting in Austria.

Mrs. Parnell Still Exhibiting Her Sore Toe.

More Deaths—Anti-Jewish Riots.

By Cable and Associated Press.
VIENNA, April 28.—Additional deaths have resulted from the riot at Biala, which make the number of victims seventeen.

The Burgomaster at Maracan has been threatened with death for forbidding the demonstration on May day.

The Burgomaster of Stockerau, whose house contains a synagogue, has received a letter warning him that his house would be burned, and that not a Jew will escape alive.

Anti-Jewish rioting is reported in Koloma, Galicia.

The peasants and laborers at Kolomo, where the anti-Jewish rioting was reported last night, are making threats against the lives of the landlords. Several of the rioters were arrested. Further trouble is feared, and troops are being hurried to the town.

An Improbable Statement.

By Associated Press.
NEW YORK, April 28.—Mrs. Delia Parnell, mother of the Irish leader, writes to a morning paper, contradicting a story to the effect that she is not destitute, and reiterating her former statement. She says: "Pen and Paper fails to portray the extreme cases, and none have told my intense sufferings. I would not now be alive but for benevolent people who provided for me, for I was fast at my advanced age, dying of cold and starvation."

An Adverse Opinion.

By Associated Press.
WASHINGTON, April 28.—The United States Supreme Court, through Chief Justice Fuller, to-day rendered an opinion adverse to the constitutionality of State laws providing for the seizure of liquor brought into a State in original packages. Such laws, the Court holds, are an interference with interstate commerce.

Not Decisive.

By Associated Press.
POUGHKEEPSIE (N. Y.), April 28.—Representatives of the conductors, brakemen, switchmen and other employees of the New York Central to the number of 100 held a secret conference here yesterday. It is not known what action was taken, though it is said it was unsuccessive.

French Elections.

By Cable and Associated Press.
PARIS, April 28.—The returns from the municipal elections show that twelve Republicans, eight Conservatives and one Boulangist were successful. Fifty-nine supplementary ballots are necessary, in which forty-two Republicans will probably be elected.

Speaker Beel Recovered—A Block ad.

By Cable and Associated Press.
LONDON, April 28.—Speaker Beel has recovered and he will resume his duties in the House of Commons to-day.

There is a blockade of railway goods at Holyhead, owing to the Irish strike.

An Executive Session.

By Associated Press.
NEW YORK, April 28.—The Executive Board of the American Federation of Labor is holding an executive session this afternoon to consider the eight-hour movement it is proposed to inaugurate on May 1st.

A Minte Treasurer Indicted.

By Associated Press.
BALTIMORE, April 28.—Ex-State Treasurer Archer was presented by the Grand Jury to-day on a charge of embezzling \$118,000 of State funds.

LOCAL INTELLIGENCE.

A MURDEROUS SUPERSTITION.

How the Indians Treat an Unsuccessful Physician.

The Inyo Independent says: Last Sunday an Indian was murdered near Lone Pine. His throat was cut and his head nearly severed from the body. A party of Indians were all in a big wagon together and all had been drinking. The murdered man was lying in the bottom of the wagon and one of the others took a butcher knife and deliberately cut his throat. The body was thrown into the road and the party in the wagon drove on. Soon after the man was killed John Parish came along with a big team; the leaders shied and refused to go on, and as it was then quite dark, he got out to find what was the matter. In front of his team he found the body, but drove around it and went on home. Next morning early he and some others went to the place, but the body had been removed and buried in the night. A search was then made, and the body was soon found. On the same day an Indian was arrested for the crime by Deputy Sheriff J. R. Moffett, and the accused is now in jail at Independence awaiting examination.

This is but the latest of many such murders, all growing out of a gross superstition. The Indians have a custom of choosing a "medicine man," or doctor, by lot. The man upon whom the lot falls must accept the office whether he likes it or not. Then comes the pinch; when three patients of the doctor die his life is forfeited, and it is a high merit to kill him. They believe that after the third Indian dies the doctor deals death promiscuously and that his victims are transformed into coyotes, a fate which all Indians appear to regard with great horror. Even an Indian may hate the idea of being transformed into a filthy, cowardly prairie wolf. This murdered Indian was a doctor, and having lost three patients, the Indians believed that he was "coyotizing" people, hence the killing.

THE DRUGGISTS.

In Lowell, Mass., agree in saying that they sell more of Hood's Sarsaparilla than all other blood purifiers.

F. C. GOODALE: I sell more of Hood's Sarsaparilla than all other blood purifiers.

A. W. DOWS & CO.: Hood's takes the lead of all other Sarsaparillas.

C. F. BLANCHARD: We sell more of Hood's Sarsaparilla than of any other.

MARSTON & SHAW: With us the sale of Hood's is 9 to 1 of any other kind.

F. & E. BAILEY & CO.: Hood's Sarsaparilla is one of the best medicines.

CARLTON & HOVEY: Hood's Sarsaparilla is one of the best medicines we have. Its sale increases every year.

P. P. MOODY: We sell twice as much of Hood's Sarsaparilla as of anything similar.

C. A. SWAN: Hood's is the most popular Sarsaparilla of the day.

THIRTY OTHER DRUGGISTS speak similarly.

This popularity at home, where Hood's Sarsaparilla and its proprietors have been known for many years, could not continue if the medicine did not possess merit. And these facts should certainly convince people in other sections of the country that Hood's Sarsaparilla is a good, reliable medicine.

Every Meal is a Trial.

To the dyspeptic, flatulent, heartburn, oppressive fullness of the stomach, are the inevitable sequels of his use of the knife and fork. To say of him that he gratifies the craving of appetite would be tantamount to saying that he gratifies his misery. He only appeases them. In relief attainable? Certainly, and by the use of a pleasant as well as thorough medicine, Hostetter's Stomach Bitters. Will it cure immediately? Certainly not—it does not effect miracles. But it does give prompt and unshakable relief, and it produces in the stomach an ultimate cure. Not only does it impart relief to the food, but promotes the conversion by the stomach into rich and strength-sustaining blood. Superstitions of the nerves, mental depression, and inquietude of the system, produced by interruption of the digestive functions, are also remedied by it. It is the finest preventive and curative of malarial disorders, and relieves constipation, rheumatism, kidney and bladder ailments, and liver complaint.

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A pure medicine, does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other affections caused by impure blood. Will drive malaria from the system and prevent as well as cure all malarial fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters. Entire satisfaction guaranteed or money refunded. Price, 50 cents, and \$1 per bottle at Pinner's drug store.

On a recent visit to Iowa, Mr. K. K. Dalt on of Luray, Russell Co., Kansas, called at the laboratory of Chamberlain & Co., Des Moines, to show them his six year old boy, whose life has been saved by Chamberlain's Cough Remedy; it having cured him of a very severe attack of croup. Mr. Dalt on is certain that it saved his boy's life and is enthusiastic in his praise of the Remedy. He says it has an excellent reputation in his vicinity; that farmers come fifteen miles to his store for it and that many of them, like himself, are never without it in their homes. Is Consumption Incurable? Read the following: Mr. C. H. Morris, N. Wark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, and now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made." Jesse Middleton, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of lung trouble; was given up by doctors; am now a host of health. Try it. Sample bottles free at Pinner's drug store."

Liver Complaint—Biliousness. The chief symptoms of this disease are depression of spirits, foul coated tongue, bad tasting mouth, disagreeable breath, dry skin, with blotches and eruptions, head complexions and yellow eyes, tired, aching shoulders, dull pain in right side, faintness, dizziness and irregular bowels. This complaint in all of its forms can be readily cured by taking Dr. Gunn's Improved Liver Pills as directed, and a lingering spell of sickness will often be ward off by their use. CORRESPONDENCE

On the Water Storage Question

Between Francis G. Newlands and B. F. Leete.

The following correspondence between Mr. Leete and Mr. Newlands is of public interest, and so the GAZETTE publishes it:

RENO, February 5, 1890.
F. G. Newlands, Washington, D. C.—DEAR SIR: You left here January 12th. Snow fell eighteen inches deep in one storm after your departure, and the thermometer touched 25° below zero. From the 14th to the 31st we had no trains across the Sierra Nevada.

At Truckee the snow was reported from twelve to sixteen feet on the level. Between Summit and Cascade Stations the telegraph poles were obscured. That means snow twenty feet deep on the level. All along the range the snowfall has been abundant beyond all precedent.

With the present prospects, hold all the water you can in Tahoe and Donner lakes, and the flow of the river will supply the present ditches, so that all impounded water will be a surplus that can be applied directly to new lands.

I regret that the dam at the old Tolles mill site has not been constructed. If that dam could now be built in time to hold all the water that Donner will catch this spring, you would stand a good chance to fill the lake to the crown of the dam, and I write to urge the importance of pushing that work.

There has not been as favorable and promising a season for thirty years as the present for pushing your scheme for reclamation of desert lands at this point, and I hope you will push it to a finish. Yours truly,

B. F. LEETE.

WASHINGTON, Feb. 22, 1890.
B. F. Leete, Esq., Reno, Nev.—MY DEAR SIR: I was much pleased to receive your letter and the information which it contained. I see that some of the papers speak as if the present heavy snow settled the storage and irrigation question for all time. They seem to forget that this snow will melt in the early summer, and that the water will run into the sink of the desert, as it has heretofore, only to be drunk up by the sun. It is a great pity that more reservoirs were not constructed during the past year. We will probably not have such an opportunity for the next five years for the saving and storage of water as the coming season will present.

I fear it is too late to construct the proposed dam at the Tolles mill site in time to catch the waters of the coming season. I am glad to see that you are awake to the importance of this question, and that the temporary relief given by the extraordinary snowfall of this season does not blind your eyes to the necessity for providing for the future. Very truly yours,

FRANCIS G. NEWLANDS.

RENO, April 15, 1890.
F. G. Newlands, Washington, D. C.—DEAR SIR: Yours of February 22d has been on my table now nearly 60 days. I need not express my pleasure at the views presented, and may say that it seemed to need no reply, so has had none. To-day the gates are open at Lake Tahoe and there is flowing down the bed of the Truckee river past the town of Reno water enough to irrigate and fertilize 150,000 acres of land and make homes for 20,000 people. That land under culture, properly fertilized with water, will annually yield \$20 per acre gross, or \$3,000,000 worth of agricultural products; \$10 of that \$20 will be net, or \$1,500,000, which represents 6 per cent. per annum on \$25,000,000. The reason assigned for opening the gates on Tahoe is that the hay ranch, cow pasture, wharf interests on the lake threaten actions for damage against the Donner Boom Company if they fill the lake to the overflow level of the dam. The upshot of all this resolved itself into the proposition that we are going to do one of two things: Either button up our coats and hold on to what we have, and sit down and content ourselves with inaction, or put on broader waists and with open front, elating the obstacles presented, go forward and develop the natural resources that now lie dormant at our doors. We have a Board of Trade with nothing to trade.

If there was property produced to their hand to trade in they would be kept busy. What we need is a Board of Development, constituted of men who have available property to invest in wild lands, dams, reservoirs and canals to hold and lead water into our arable deserts. When the Board of Development has done its work and products and manufacturers come forth from the now idle soil and idle water, then there will be a field for your Board of Merchants and middle men to get in their work. The Board of Development that I would outline should have,

First—property to invest.
Second—Take hold of and handle the entire watershed of the Truckee river.

Third—Cover in as much land as they could water.

Fourth—Organize a land department and lot off their lands in 40-acre tracts with small, inexpensive, yet commodious farm houses and bring the water onto the land, and sell it at a fair price on partial payments and installments with low rates of interest, so as to encourage permanent settlement and warrant to the farmer peace, permanence and prosperity, and to the Board of Development good security, six per cent. interest and a gradual and certain return of the capital invested.

With these things in hand settlement can be successfully invoked. But behind all this stands the fact that Nevada as an export farmer has not yet demonstrated her ability to compete in open market with the products of California on the west, or Illinois,

Missouri, Kansas and Nebraska on the east. As yet the volume of agricultural products in this State has not arisen to the dignity of competition with agricultural States. What may be developed in this direction now lies in the field of conjecture. To-day the agricultural prosperity of this State hangs upon the mining industry as its consumer and market.

Behind this lies the indispensable necessity of an encouraging demand for silver and for gold, or our gold and silver, and for wheat, and for corn, and must be developed together. My hope lies in the financial desperation of the nation. Seventeen years ago unfortunate legislation cut off more than one-half our material for coinage. Added to that the national bank shippers have been canceled, until to-day our money is all comprehended in \$1,400,000,000. In 17 years we have added more than 17,000,000 to our population, and our growth in every kind of property, except property in money, has been more rapid than before in the history of this or any other nation. To-day, with 90,000,000 of people and \$60,000,000,000 of property, we are trying to do business with less money than we had 20 years ago, when our population was less than 40,000,000 and our property less than \$40,000,000,000.

Windom says we have \$1,400,000,000 property in money. He doesn't say property in money, for he doesn't say to comprehend the difference between property in money and an artificial representation of property in money, which Mr. Wm. M. Stewart calls credit money. Let those men understand.

First—That money is a kind of property that completely answers commercial demand.

Second—That value means property or anything that persons desire and that costs human effort.

Third—That gold and silver, 9-10 fine, costs of human effort for each 25 to 30 grains of such gold or 412½ grains of such silver as much as one dollar's value of food, clothing or shelter or property of any character known to mankind, for the human family agree that there is property value and property equivalent in gold and silver.

Now look at this artificial representation, either National Bank paper promises or Treasury notes. What is the property value of the bank note paper upon which we propose to print credit money? Not 50 cents per pound avoirdupois. The property value of the paper on which a \$1,000 promise to pay is imprinted is not one-tenth of one cent.

On the contrary a bar of 25,800 grains, 9-10 fine gold bullion, when coined into fifty \$20 pieces it is then worth \$1,000 and no more, so that the property value of gold bullion in general terms is equal to the money value of gold coin, and the only distinction is that in coin, the gold having received fiat from the government, it possesses the money function to completely answer commercial demands. That is what I mean by property in money, and that is what the world means.

Once more. Estimating the present value of all the property of this nation at sixty billions, on Windom's statement it must be divided thus: Money, \$1,400,000,000; other property, \$58,600,000,000; total, \$60,000,000,000; or about 2.4-10 per cent. of the property of this nation to-day is property in money and its representatives. In reality the National Bank note and the Treasury note are not property in money; they represent an obligation against other property. The only real property in money is the gold and silver coin of the nation. Now to the point. No business man, producer or manufacturer, can transact his business independently with 2.4-10 per cent. of his property in money. What I mean by that is, if I come to you and get \$100 of your property, I want to give you in exchange \$100, then we part each having his own. To-day, as a nation, we have not got property enough in money to make our exchanges. The complex is not property in money; it is the general property of commerce, and not enough in money. There has not been sufficient labor invested in gold and silver money. Instead of 2.4-10 per cent., there should be 10 per cent. of the property of the nation property in money. If \$1,400,000,000 there should be \$6,000,000,000, and as other property increases, so property in money should increase in ratio, and then prices and values would be steady and uniform.

It is conceded all around that values are only created by human effort. It follows that the money of the world can only come as other property came—by human effort and labor—and the world has agreed that gold and silver are the proper material to manufacture money from, because they cost in their production the human effort they represent that gives them value. We want gold and silver money to make our agriculture, commerce, and give us free coinage of all the gold and silver we can produce, develop our agriculture, produce from our soil everything we consume of food or clothing, grow up a permanent population here draining their subsistence from the soil. Active work in the mines will stimulate active development in our agriculture and manufacture, and that will make the general prosperity. As to the Tahoe dam gates, etc., it is proposed to get the owners around the margin of the lake to disclaim all claims for damages, and so get the gates closed. Yours truly,

B. F. LEETE.

Dining Cars on the Central Pacific. It is stated in railroad circles that dining cars will be put on the fast mail train on the Central Pacific just as soon as Pullman can build three cars for that purpose. The Union Pacific, which now runs dining cars from Chicago via Grand Island, will then run a car from Grand Island to Ogden, and by this arrangement there will be established a dining car service from ocean to ocean, via Chicago, Omaha and Ogden.

TRUCKEE NEWS ITEMS.

River Driving, and the Tahoe Road Opened.

Saturday's Truckee Republican says: Every day this week the Truckee river has been "flooded" for the purpose of floating down logs to the sawmill of the Truckee Lumber Co. The first two days the logs came down in large numbers, but since only a few have reached the mill. As soon as the snow is off a force of men and teams will be put on and a clean drive made. The week's work has resulted in bringing down about a million and a half feet of saw logs, which will be enough to supply the mill for a month. The mill is now being put in shape for work and will start up next week.

John E. Moody and the toll road company have a force of men now at work opening the road to Tahoe. On Thursday E. S. Church drove a team and wagon two miles from town, and yesterday made another mile toward the lake. The snow is deep in places, but as soon as a wagon once goes through it, it disappears with astonishing rapidity. A number of men are at work leveling off the drifts. Dirt is sprinkled over the snow, which attracts the heat, and it is said where this is done the snow melts four times as fast as it would without it. In this way the snow is said to settle six to eight inches a day. To-morrow all the bodied men at Tahoe City propose to turn out and help open the road and will keep at it until the result is attained.

DEPEW'S EXPERIENCE.

What Became of the Tipplers of His Acquaintance.

Channey M. Depew says: "Twenty-five years ago in Peekskill I knew every man, woman and child in that place. And it has been a study with me to mark boys who started in every grade of life with myself, to see what has become of them. I was up last fall and began to count them over, and it was an instructive exhibit. Some of them became clerks, merchants, manufacturers, lawyers, doctors. Of those who were church-going people, who were steady, industrious, and hard-working men, who were frugal and thrifty, every single one of them, without an exception, owns the house in which he lives and has something laid by, the interest on which, with his house, would carry him through many a rainy day."

A Union Pacific Proposition.

The Union Pacific asks Vancouver, Wash., to raise \$50,000 bonds, grant the right-of-way through the city and secure fifteen acres of land for depot grounds and terminal facilities. In return the managers promise that an air line road from Vancouver to the Sound will be completed by December 1, 1891, and a bridge across the Columbia river at Vancouver May 1, 1893 work will begin within a month after the acceptance of the proposition.
